

Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Pursuant to Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH"), this statement provides information on Substances of Very High Concern (SVHC). The REACH regulation aims to ensure a high level of protection for human health and the environment from risks posed by chemicals.

Under Article 33, suppliers must disclose the presence of any SVHC on the ECHA Candidate List if it exceeds 0.1% weight by weight in any article. This obligation is triggered at the homogeneous material level, regardless of the substance's concentration in the final product.

Certain components within our products contain the SVHCs listed below at levels exceeding this threshold, though their concentration in the final finished product remains significantly lower.

Substance Name	CAS number	Product	Component	Detected Results % (w/w)	Comment
Triphenyl phosphate	115-86-6	Active Power Bank (Model No.: RNE33)	Plastic Cover on the back	0.295	Used in plastic component for flame retardant treatment

Effective Date: April 21, 2025
